

Landsborough Place Making

Project Update

Council is working with the Landsborough community to help shape the town's future.

We are creating a place making masterplan to ensure Landsborough's future aligns with what the community wants.

Earlier this year we engaged with the Landsborough community to understand what you love about the town and what can be improved to find a shared vision for the future.

Your feedback is helping us develop recommendations as part of a draft masterplan, which you will be able to provide further feedback on later this year or early next year.

Have we got it right?

We would love to hear your feedback on the draft vision for the future of Landsborough.

Our next stage of community engagement is proposed for late 2018/early 2019.

What we have heard so far

Landsborough will be a place that...

A place for people

- is easy to get around, with improved traffic movement, pedestrian access and parking
- provides essential amenities such as toilets and water bubblers in public spaces
- is safe and enjoyable to spend time day or night.

A beautiful and defined town core

- is a local place that appeals to residents and visitors alike
- has a multi-use central community gathering space
- has an attractive and appealing town core area
- has an appealing entrance to the town & is a clear gateway to region.

An authentic character and identity

- has a distinct identity authentic to Landsborough
- celebrates its heritage and location in 'Glasshouse Country'
- retains a country town look and feel
- has a strong sense of greenery and nature.

A reason to visit and stay

- has variety of spaces to enjoy and explore
- has a sense of atmosphere, activity and regular events
- has a lively, attractive shopping area and eating experience
- has a range of independent and local shops.

Have your say
