

Amendment Instrument

Proposed Sunshine Coast Planning
Scheme 2014 (Qualified State Interest
Amendment) and Planning Scheme Policy
(Amendment) No. [to be inserted] –
Special Entertainment Precincts

Public consultation version October 2018

Made under the *Planning Act 2016*, section 20 (Amending planning schemes under Minister's rules) and section 22 (Making or amending planning scheme policies)

This amendment has effect on and from [to be inserted]

1. Short title

This amendment instrument may be cited as the proposed Sunshine Coast Planning Scheme 2014 (Qualified State Interest Amendment) and Planning Scheme Policy (Amendment) No. [to be inserted] – Special Entertainment Precincts.

2. Commencement

This amendment instrument has effect on and from [to be inserted].

3. Purpose

The purpose of this amendment instrument is to:

- (a) facilitate/support the live music industry on the Sunshine Coast through the designation of parts of Maroochydore and Nambour as special entertainment precincts under the *Local Government* Act 2009;
- (b) amend the Nuisance code to:
 - include specific noise criteria which must be met and provisions to regulate attenuation requirements for venues that are likely to host live music, and residential development both within the special entertainment precincts and the surrounding buffer areas; and
 - ii. include new noise criteria and requirements for development in key mixed use areas more generally to minimise/manage land use conflicts.
- (c) amend the tables of assessment, zone codes and relevant local plan provisions for the Principal centre zone, Major centre zone, and parts of the District centre zone, Local centre zone and Tourist accommodation zone to:
 - i. allow for diffusion of "lower impact" entertainment uses (e.g. restaurants and small bars) across centre zones and key tourist areas to encourage vibrancy and support the night time economy in higher order centres, whilst concentrating "higher impact" entertainment uses (e.g. night clubs and dedicated live music venues) in the designated special entertainment precincts and the Ocean Street Food and Music Sub-Precinct;
 - allow for micro-breweries to establish via code assessment in the Principal and Major centre zones
 - iii. reinforce the mixed use nature of these zones and the desire for a vibrant day time and night time economy; and
 - iv. highlight that residents and visitors in these zones should expect a reasonable level of ambient noise associated with the benefits of living or staying in a centre or core tourist area.
- (d) delete provisions relating to existing hospitality areas identified in the planning scheme to reduce potential overlap and confusion with the designated special entertainment precincts;
- (e) amend the Planning Scheme Policy for the Nuisance code to include advice for achieving the outcomes specified in the Nuisance code including requirements for noise impact assessments;
 and
- (f) undertake all necessary consequential amendments to other parts of the planning scheme for consistency with the above amendments.

4. Amendment table

This amendment instrument amends the component of the *Sunshine Coast Planning Scheme 2014* in Table 1, Column 1, in respect of the planning scheme provisions stated in Table 1, Column 2, in the manner stated in Table 1, Column 3.

Table 1 Amendment table

Column 1	Column 2	Column 3
Planning scheme component	Planning scheme provision	Amendment
Part 1 About the Planning Scheme	Section 1.2 (Planning Scheme Components), Table 1.2.2 (Local plans and local plan precincts)	Amend as shown in Appendix A
Part 3 Strategic Framework	Section 3.4 (Economic development), Section 3.4.3 (Element 2 – Sunshine Coast activity centre network), Section 3.4.3.1(d)(iv) (Specific outcomes)	Amend as shown in Appendix A
Part 5 Tables of Assessment	Section 5.5 (Categories of development and categories of assessment – material change of use), Table 5.5.4 (Tourist accommodation zone)	Amend as shown in Appendix A
Part 5 Tables of Assessment	Section 5.5 (Categories of development and categories of assessment – material change of use), Table 5.5.5 (Principal centre zone)	Amend as shown in Appendix A
Part 5 Tables of Assessment	Section 5.5 (Categories of development and categories of assessment – material change of use), Table 5.5.6 (Major centre zone)	Amend as shown in Appendix A
Part 5 Tables of Assessment	Section 5.5 (Categories of development and categories of assessment – material change of use), Table 5.5.7 (District centre zone)	Amend as shown in Appendix A
Part 5 Tables of Assessment	Section 5.9 (Categories of development and categories of assessment – local plans), Table 5.9.2 (Caloundra local plan: material change of use)	Amend as shown in Appendix A
Part 5 Tables of Assessment	Section 5.9 (Categories of development and categories of assessment – local plans), Table 5.9.9 (Mooloolaba/Alexandra Headland local plan: material change of use)	Amend as shown in Appendix A
Part 6 Zones	Section 6.2 (Zone codes), Section 6.2.4 (Tourist accommodation zone code), section 6.2.4.2 (Purpose and overall outcomes)	Amend as shown in Appendix A
Part 6 Zones	Section 6.2 (Zone codes), Section 6.2.5 (Principal centre zone code), section 6.2.5.2 (Purpose and overall outcomes)	Amend as shown in Appendix A
Part 6 Zones	Section 6.2 (Zone codes), Section 6.2.5 (Principal centre zone code), Table 6.2.5.2.1 (Consistent uses and potentially consistent uses in the Principal centre zone)	Amend as shown in Appendix A
Part 6 Zones	Section 6.2 (Zone codes), Section 6.2.6 (Major centre zone code), section 6.2.6.2 (Purpose and overall outcomes)	Amend as shown in Appendix A
Part 6 Zones	Section 6.2 (Zone codes), Section 6.2.6 (Major centre zone code), Table 6.2.6.2.1 (Consistent uses and potentially consistent uses in the Major centre zone) Amend as s Appendix A	
Part 6 Zones	Section 6.2 (Zone codes), Section 6.2.7 (District centre zone code), section 6.2.7.2 (Purpose and overall outcomes) Amend as shown in Appendix A	
Part 7 Local plans	Section 7.2.6 (Caloundra local plan code), Section 7.2.6.3 (Purpose and overall outcomes)	Amend as shown in Appendix A

- (v) protection of existing tourism, sport and leisure facilities and encouragement of the establishment of new facilities that contribute to active, healthy living and community wellbeing;
- (vi) the development of educational and research institutions including the University of the Sunshine Coast and other tertiary and trade-based learning facilities;
- (vii) encouraging the establishment of new agribusiness in rural areas including new niche food and beverage product and value adding production in a clean environment; and
- encouraging the adoption of clean technology solutions in employment areas and enterprise areas.

3.4.3 Element 2 – Sunshine Coast activity centre network

3.4.3.1 Specific outcomes

- (a) To support the preferred pattern of settlement, development is consistent with the Sunshine Coast activity centre network identified conceptually on Strategic Framework Map SFM 2 (Economic development elements).
 - Editor's note—the Sunshine Coast activity centre network is described in Table SC1.2.3 of Schedule 1 (Definitions), and for ease of reference is reproduced below in Table 3.4.3.1 (Activity centre network).
- (b) Activity centres provide for a range of business investment and employment opportunities in a manner that is commensurate with the role and function of the activity centre as specified by the activity centre network.
- (c) Development does not undermine or compromise the activity centre network either by inappropriately establishing centre activities outside of an activity centre or proposing a higher order or larger scale of uses than intended for a particular activity centre.
- (d) Activity centres incorporate most or all of the following elements:-
 - a main street or other externally focussed configuration with active or semi-active street frontages that connect to surrounding communities and community spaces;
 - high amenity public spaces that support and encourage social interaction, casual meeting and active lifestyles;
 - (iii) buildings and places which respect and contribute to the character and identity of their local area;
 - (iv) hospitality areasa vibrant, mixed use character, including special entertainment precincts in identified locations which provide a focus for business uses and entertainment activities that may operate after hours and include live or amplified music which creates a vibrant atmosphere. In mixed use activity centres generally, and special entertainment precincts and buffer areas in particular, residents should expect ambient noise levels to be relatively higher; and
 - (v) creative industries and cultural and community activities which contribute to economic and community vitality.
- (e) Activity centres are a focal point for community life accommodating a range of business, retail, education, entertainment, sport and recreation, health, cultural and community facilities, parks and civic spaces, together with a significant proportion of housing that creates opportunities for affordable living and meets transit oriented development and universal access and design principles.
- (f) Activity centres are well connected by an efficient public transport system and active transport network and are designed to encourage walking, cycling and public transport use as well as the efficient delivery of freight.
- (g) High quality *infrastructure* networks encourage and support business growth and development within activity centres.

6.2.4 Tourist accommodation zone code

6.2.4.1 Application

- (1) This code applies to assessable development:-
 - (a) within the Tourist accommodation zone as identified on the zoning maps contained within Schedule 2 (Mapping); and
 - identified as requiring assessment against the Tourist accommodation zone code by the tables of assessment in Part 5 (Tables of assessment).
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

6.2.4.2 Purpose and overall outcomes

- (1) The purpose of the Tourist accommodation zone code is to provide for activities comprising predominantly multi-unit visitor accommodation and a limited range of retail, business and entertainment activities which primarily service visitor needs.
- (2) The purpose of the Tourist accommodation zone code will be achieved through the following overall outcomes:-
 - (a) development provides for a mix of:-
 - medium and high density residential activities designed to primarily service tourist needs and predominantly comprising multiple dwellings, resort complexes and short-term accommodation in key locations; and
 - (ii) non-residential activities which:-
 - (A) complement tourist accommodation and enhance the function and attractiveness of the area as a visitor destination;
 - (B) offer food, shopping, entertainment and personal services to residents and visitors, including food and drink outlets, shops, small shopping centres, function facilities and indoor sport and recreation;
 - (C) are compatible with the mixed use character and amenity of the area; and
 - (D) do not compromise the viability of the Sunshine Coast activity centre network¹ by introducing activities or scales of activity that should be accommodated within a centre zone;
 - (b) development recognises the character of core tourist areas as vibrant, mixed use places, with a lively day time and night time economy. Residents and visitors in the zone should expect a reasonable level of ambient noise associated with the benefits of living or staying in a core tourist area;
 - (b)(c) where located outside a local plan area, development provides for:-
 - (i) residential activities to be limited to visitor accommodation only; and
 - (ii) non-residential activities to be limited to those directly associated with and ancillary to resort facilities;
 - (c)(d) development provides for an efficient pattern of land use and infrastructure that:-
 - creates walkable, legible and mixed use tourist accommodation areas that integrate with active transport networks and are well connected to activity centres, visitor attractions, open space and recreational areas, community facilities and educational opportunities;
 - (ii) encourages and facilitates urban consolidation, public transport accessibility and use, walking and cycling; and
 - (iii) maximises the efficient extension and safe operation of *infrastructure*;

(d)(e) development generally caters for a medium rise built form;

Editor's note—the Sunshine Coast activity centre network is described in Table SC1.2.3 of Schedule 1 (Definitions).

6.2.5 Principal centre zone code

6.2.5.1 Application

- (1) This code applies to assessable development:-
 - (a) within the Principal centre zone as identified on the zoning maps contained within Schedule 2 (Mapping); and
 - identified as requiring assessment against the Principal centre zone code by the tables of assessment in Part 5 (Tables of assessment).
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

6.2.5.2 Purpose and overall outcomes

- (3) The purpose of the Principal centre zone code is to provide for the Maroochydore Principal Regional Activity Centre to be developed:-
 - (a) as the principal regional activity centre for the Sunshine Coast sub-region, characterised by diversity, efficiency, sophistication, ecological sustainability and a unique coastal, subtropical style;
 - (b) with key concentrations of highest order retail, commercial, residential and community facilities capable of servicing the Sunshine Coast sub-region; and
 - (c) at a scale and intensity that is commensurate with the role and function of the Principal Regional Activity Centre as specified in the Sunshine Coast activity centre network and the Maroochydore/Kuluin local plan code.

Editor's note—part of the Maroochydore Principal Regional Activity Centre is a priority development area subject to the *Economic Development Act* 2012.

- (4) The purpose of the Principal centre zone code will be achieved through the following overall outcomes:-
 - (a) development provides for the widest range and highest order retail, commercial, residential and community facilities to be accommodated within the Maroochydore Principal Regional Activity Centre in an arrangement that produces mixed land use outcomes, supports public and active transport modes and creates a large number of jobs in a wide array of creative and successful enterprises;
 - (b) development recognises and reinforces the natural attributes of the Maroochydore Principal Regional Activity Centre by celebrating its waterfront setting and creating buildings, landscapes and a series of interconnected waterside public spaces that emphasise an outdoor lifestyle and a strong affinity with living on the coast;
 - (c) development supports the establishment of a community heart for Maroochydore and the Sunshine Coast sub-region through significant community facilities including regional and local level health, education, cultural and entertainment facilities together with other community support services which enrich community life;
 - (d) development provides for the establishment of diverse and high density in-centre residential activities, thus increasing the activity and vibrancy of the Maroochydore Principal Regional Activity Centre and offering high quality living environments that are close to public transport and everything the principal regional activity centre has to offer, including a vibrant day time and night time economy. Residents in the zone should expect a reasonable level of ambient noise associated with the benefits of living in a centre;
 - development provides for the establishment of a highly permeable street network that is convenient, attractive and pedestrian friendly and that allows for effective vehicle movement and circulation;
 - (f) development provides for and supports the establishment of the dedicated public transport corridor (CAMCOS) and for the transit station and interchange (CAMCOS) as

6.2.6 Major centre zone code

6.2.6.1 Application

- (2) This code applies to assessable development:-
 - (a) within the Major centre zone as identified on the zoning maps contained within Schedule 2 (Mapping); and
 - (b) identified as requiring assessment against the Major centre zone code by the tables of assessment in Part 5 (Tables of assessment).
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

6.2.6.2 Purpose and overall outcomes

- (1) The purpose of the Major centre zone code is to provide for Beerwah Town Centre, Caloundra Town Centre, Nambour Town Centre and Sippy Downs Town Centre to:-
 - (a) be developed as major regional activity centres for the Sunshine Coast, servicing a part of the sub-region and complementing the role of Maroochydore as the principal regional activity centre for the Sunshine Coast;
 - (b) accommodate a range of higher order business activities, entertainment activities, multiunit residential activities and community activities in an active and vibrant mixed use environment; and
 - (c) have a scale and intensity of development that is commensurate with the role and function of a major *regional activity centre* as specified in the *Sunshine Coast activity centre network*² and the applicable local plan code.
- (2) The purpose of the Major centre zone code will be achieved through the following overall outcomes:-
 - (a) major regional activity centres are developed as vibrant, mixed use places, with a lively day time and night time economy. Residents in the zone should expect a reasonable level of ambient noise associated with the benefits of living in a centre;
 - (b) development provides a range of higher order retailing, entertainment/catering, commercial, administrative and government services, and community and cultural facilities;
 - (c) a mix of medium and high density multi-unit residential activities are provided, generally in a mixed use format, that are complementary to the predominant non-residential activities and business functions of the zone:
 - (d) development for business activities is of a scale and intensity that is consistent with the intended role and function of the particular activity centre as specified in the Sunshine Coast activity centre network and does not undermine the role and function of Maroochydore as the principal regional activity centre for the Sunshine Coast sub-region;
 - the total gross leasable floor area of all existing and approved business activities does not exceed any allocation specified for the major regional activity centre in a local plan code;
 - (f) higher order shopping facilities in the form of a *department store* are not established in any major *regional activity centre*;
 - (g) development provides for an efficient pattern of land use where the greatest mix of uses and highest intensity of development is located in areas with relatively high levels of access to public transport facilities and all development has a clear connection to pedestrian, bicycle, public transport and road transport networks and infrastructure;

² Editor's note—the Sunshine Coast activity centre network is described in Table SC1.2.3 of Schedule 1 (Definitions).

- (h) wherever practicable, business activities and community activities are co-located and designed to contribute to safety, security and the vitality of the centre;
- development incorporates a high standard of urban and landscape design that creates attractive and functional buildings, streets and places in keeping with the primary role of and focus of the zone as a major hub of economic and community activity;
- development contributes to the creation of an active, safe and legible public realm, incorporating high quality public open spaces including town squares, civic plazas and forecourts, where appropriate;
- (k) development is sited and designed to maximise activity along *primary active street* frontages with buildings maintaining a human scale at street level;
- development is designed and operated to be responsive to the Sunshine Coast's subtropical climate and minimise the use of water and energy;
- (m) development ensures that there is no unreasonable loss of amenity for surrounding premises, having regard to matters such as noise, lighting, waste, fumes, odours, overlooking and public health and safety, having regard to the mixed use nature of the zone:
- (n) development avoids as far as practicable, or where avoidance is not practicable, minimises and otherwise mitigates, adverse impacts on ecologically important areas, including creeks, gullies, waterways, wetlands, coastal areas, habitats and vegetation through location, design, operation and management;
- development is designed and sited to sensitively respond to the physical characteristics and constraints of land, including flooding, steep land, landslide hazard and bushfire hazard, where applicable;
- (p) development encourages public transport accessibility and use and provides for pedestrian, cycle and vehicular movement networks that maximise connectivity, permeability and ease of movement within the activity centre;
- (q) development is provided with the full range of urban services to support the needs of the community, including parks, roads and transport corridors, pedestrian and cycle paths, reticulated water, sewerage, stormwater drainage and electricity and telecommunication infrastructure:
- development is located and designed to maximise the efficient extension and safe operation of infrastructure;
- development does not adversely impact on the continued operation, viability and maintenance of existing infrastructure or compromise the future provision of planned infrastructure; and
- (t) except where otherwise specified in a local plan code in Part 7 (Local plans), development provides for the following:-
 - a use listed as a consistent use in column 1 of Table 6.2.6.2.1 (Consistent uses and potentially consistent uses in the Major centre zone) to occur in the Major centre zone; and
 - (ii) a use listed as a potentially consistent use in column 2 of **Table 6.2.6.2.1** to occur in the Major centre zone only where further assessment has determined that the use is appropriate in the zone having regard to such matters as its location, nature, scale and intensity.

Note—a use not listed in **Table 6.2.6.2.1** is an inconsistent use and is not intended to occur in the Major centre zone.

Note—the Caloundra local plan code includes a supplementary table of consistent uses and potentially consistent uses for land included in the Major centre zone in Local plan precinct CAL LPP-1 – Caloundra Central. The supplementary table is to be used in place of **Table 6.2.6.2.1** for development in Local plan precinct CAL LPP-1 – Caloundra Central.

Note—the Nambour local plan code includes a supplementary table of consistent uses and potentially consistent uses for land included in the Major centre zone in Local plan precinct NAM LPP-2 – Town centre

frame. The supplementary table is to be used in place of **Table 6.2.6.2.1** for development in Local plan precinct NAM LPP-2 – Town centre frame.

Note—the Sippy Downs local plan code includes a supplementary table of consistent and inconsistent uses for land included in the Major centre zone in Local plan precinct SID LPP-1 – Sippy Downs Town Centre. The supplementary table is to be used in place of **Table 6.2.6.2.1** for development in Local plan precinct SID LPP-1 – Sippy Downs Town Centre.

6.2.7 District centre zone code

6.2.7.1 Application

- (1) This code applies to assessable development:-
 - (a) within the District centre zone as identified on the zoning maps contained within **Schedule 2 (Mapping)**; and
 - (b) identified as requiring assessment against the District centre zone code by the tables of assessment in Part 5 (Tables of assessment).
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

6.2.7.2 Purpose and overall outcomes

- (1) The purpose of the District centre zone code is to provide for a range of activities that complement, but do not compete with, the role and function of higher order activity centres by serving the convenience needs of district catchments in centres that are highly accessible and well connected to the catchment areas that they serve.
 - District centres are developed as well-designed, safe and visually attractive business, community and employment centres, predominantly in a low-rise building format.
- (2) The purpose of the District centre zone code will be achieved through the following overall outcomes:-
 - (a) district activity centres are developed as vibrant, mixed use places, with a lively day time and night time economy. Residents in the zone should expect a reasonable level of ambient noise associated with the benefits of living in a centre;
 - (b) development provides for a range of retail business activities that service the district level convenience needs of surrounding areas;
 - (c) in addition to retail business activities, development provides for a mix of other business activities including food and drink outlets (e.g. restaurants and dining facilities), health care services, offices and an appropriate range of community activities and support services that promote an active, mixed use environment;
 - (d) development also provides for a limited range of multi-unit residential activities, including dwelling units and multiple dwellings, generally in a mixed use format, where such activities are ancillary to and support the predominant business functions of the zone;
 - (e) development for business activities is of a scale and intensity that is consistent with the intended role and function of the particular activity centre as specified in the Sunshine Coast activity centre network³ and the applicable local plan code, and does not undermine the role and function of higher order activity centres;
 - (f) development provides for the following:-
 - the total gross leasable floor area of all existing and approved business activities does not exceed any allocation specified for the district activity centre in a local plan code;
 - (ii) not more than one full line supermarket to be established in any district activity centre; and
 - (iii) higher order shopping facilities, including *department stores* and *discount department stores*, to not be established in any district activity centre;
 - (g) development provides for an efficient pattern of land use, where the greatest mix of uses and highest intensity of development is located in areas with relatively high levels of access to public transport facilities, and all development has a clear connection to pedestrian, bicycle, public transport and road transport networks and infrastructure;

³ Editor's note—the Sunshine Coast activity centre network is described in Table SC1.2.3 of Schedule 1 (Definitions).

(c) Utility installation (where a local utility)	

- a continuous high quality walkable waterfront and greenspace link, in public ownership, along the Cotton Tree foreshore, Cornmeal Creek and Maud Canal; and
- (iii) a continuous high quality public pedestrian and cycle link along the Maroochy River and Maroochydore Beach foreshore, integrating and extending the Coastal Path System.
- (j) Development contributes to the establishment of landscaped boulevards along major transport routes and attractive gateways to enhance the sense of entry to the local plan area and the Maroochydore Principal Regional Activity Centre.
- (k) Development provides appropriate landscape buffering to the Sunshine Motorway in order to visually screen built form elements and maintain the visual amenity of the Motorway.
- (I) Development provides for community infrastructure and services that meet the needs of residents in the Maroochydore Principal Regional Activity Centre and the Sunshine Coast subregion.
- (m) The Principal centre zone in Precinct MAR LPP-1 (City Core) is developed as a mixed use retail core and contains the highest order retail uses in conjunction with a range of business uses and a significant quantity of residential dwellings. In conjunction with development in the Maroochydore City Centre Priority Development Area, Precinct MAR LPP-1 (City Core) is intended to be the most concentrated urban setting in the Maroochydore Principal Regional Activity Centre and is to provide the greatest range and diversity of uses.
- (n) Development in the Principal centre zone in Precinct MAR LPP-1 (City Core) provides for mixed use premises which support a vibrant day time and night time economy. Residents in the precinct, and in the Principal centre zone generally, should expect a reasonable level of ambient noise associated with the benefits of living in a centre.
- (n)(o) Development in the Principal centre zone in Sub-precinct MAR LPSP-1 (Ocean Street Food and Music Sub-Precinct Hospitality Area) provides for a range of business uses and entertainment activities including food and drink outlets, function facilities, bars, hotels and nightclub entertainment facilities that may operate after hours and include live or amplified music which creates a vibrant atmosphere.
- (e)(p) Development in the Principal centre zone on Key Site 1 (Sunshine Plaza) provides for expansion or redevelopment of the shopping centre and adjacent sites to provide for an integrated, high quality design which addresses and activates key street frontages, enhances connectivity through the site, in particular through the provision of the public pedestrian promenade and identified road links, and presents an attractive interface to surrounding areas through outstanding building, streetscape and landscape design.
- (p)(q) Development in in-the Principal centre zone on Key Site 2 (Big Top) provides for an integrated, high quality mixed use development which contributes to the vibrancy of Ocean Street, Cornmeal Creek and Horton Parade, enhances pedestrian connectivity through and around the site and displays an outstanding level of architectural and landscape design befitting of its prominent location.
- (a)(r) Development in the Principal centre zone in Precinct MAR LPP-2 (Aerodrome Road) and Precinct MAR LPP-3 (Maroochy Boulevard/Dalton Drive) occurs in accordance with **Table 7.2.19.4.3 (Maroochydore/Kuluin local plan supplementary table of consistent and inconsistent uses in the Principal centre zone)** and in particular ensures that any retail business uses do not detract from or compete with the core retailing functions of Precinct MAR LPP-1 (City Core).
- (r)(s) Development in the Principal centre zone in Precinct MAR LPP-2 (Aerodrome Road):-
 - predominantly comprises medium intensity residential activities and business activities, including smaller scale *showroom* uses;
 - (ii) recognises the role of Aerodrome Road as a gateway entry to the Maroochydore Principal Regional Activity Centre and major tourist route and provides for it to be established as a landscaped boulevard with transit and pedestrian priority, limited lot access for vehicles and high quality building presentation;
 - (iii) provides for the establishment of key transit nodes at major intersections along Aerodrome Road; and
 - (iv) provides for bicycle and pedestrian infrastructure which connects major transit stations within the Maroochydore Principal Regional Activity Centre to the Cotton Tree waterfront and the eastern surf beaches.

7.2.20.3 Purpose and overall outcomes

- (1) The purpose of the Mooloolaba/Alexandra Headland local plan code is to provide locally relevant planning provisions for the assessment of development within the Mooloolaba/Alexandra Headland local plan code.
- (2) The purpose of the Mooloolaba/Alexandra Headland local plan code will be achieved through the following overall outcomes:-
 - (a) Mooloolaba/Alexandra Headland local plan area is a diverse coastal urban area with a strong focus on tourism. The local plan area comprises a number of urban and suburban residential areas and high density visitor accommodation areas supported by a district activity centre at Mooloolaba, community and sport and recreation facilities, a harbour and associated waterfront and marine uses.
 - (b) Urban development in the Mooloolaba/Alexandra Headland local plan area is limited to land within the urban growth management boundary so as to protect the environmental and landscape value of foreshore areas and the Mooloolah River.
 - (c) Development in the local plan area is sited and designed to protect significant environmental areas and retain the key landscape elements that contribute to the setting, character and identity of Mooloolaba and Alexandra Headland, including beaches and dunal systems, foreshore parkland, Alex Forest Conservation Area, Mooloolaba environmental reserve, Nelson Park, Charles Clarke Park, character vegetation along the foreshore and views either to or from important landscape features.
 - (d) Development recognises and reinforces the beachside location of the local plan area by providing for high quality, contemporary sub-tropical building and landscape design that emphasises the casual, outdoor lifestyle. Development is of a scale and form which protects and enhances the existing character and identity of established parts of the local plan area.
 - (e) Development on land with frontage to Alexandra Parade, Brisbane Road, Mooloolaba Esplanade and River Esplanade achieves a high standard of urban design and contributes to streetscape, landscape, public art and public space improvements which enhance gateway locations, create attractive boulevards along these roads and promote the beachside character of the local plan area.
 - (f) Development in the District centre zone contributes to the Mooloolaba Town Centre's role as a district activity centre providing a range of business, community and residential uses to service the needs of residents and visitors. Mixed uses and uses which enhance the tourism focus and district level role and function of the Mooloolaba Town Centre are encouraged.
 - (g) Development in the District centre zone contributes to the economic vitality of Mooloolaba Town Centre through the provision of improved streetscape and landscape treatments, active street frontages and improved public spaces.
 - (h) Development in the District centre zone on Key Site 1 (Brisbane Road Carpark) provides for an integrated, high quality mixed use development incorporating a range of centre activities and residential accommodation. Development provides for significant streetscape and landscape improvements to all frontages, strong pedestrian connections to the adjoining tourist accommodation area, and a well-designed and integrated public carpark.
 - (i) Development in the Tourist accommodation zone reinforces these areas, and in particular the frontage to Mooloolaba Esplanade, as the primary tourism focus areas with vibrant and pedestrian friendly active street frontages providing a range of small-scale boutique retail and outdoor dining experiences with residential accommodation above, and strong visual and pedestrian linkages with the foreshore areas and surrounding residential, business and community activities.
 - (j) Development in the District centre zone and Tourist accommodation zone recognises the character of these areas as vibrant, mixed use places, with a lively day time and night time economy, Precinct MAH LPP-1 (Mooloolaba Hospitality Area) provides a range of entertainment activities including food and drink outlets, function facilities, bars and hotels that may operate after hours and include live music which creates a vibrant atmosphere. Residents and visitors in these zones should expect a reasonable level of ambient noise associated with the benefits of living or staying in a centre or core tourist area.

	on Figure 7.2.20A		

A range of cultural and sport and recreation facilities are also located in the local plan area, including the Nambour Civic Centre, police citizens youth club, indoor sports centre, Nambour Showgrounds and numerous other clubs and societies that provide a valuable community focus for the surrounding hinterland and the wider Sunshine Coast.

Nambour provides a mix of residential types to meet community needs, including several retirement communities. However, housing remains predominantly detached in character. Significant consolidation and redevelopment opportunities are available in the local plan area, particularly within walking distance to the town centre and railway station. The older residential parts of the local plan area contain pockets of character housing in the traditional Queensland style. Consolidation is intended to be undertaken in a manner which is sympathetic to the established character of these areas, including the retention of existing character buildings within the development design.

The main north-south road access through the local plan area is via Nambour Connection Road. Bli Bli Road and Petrie Creek Road provide the main road connections between the local plan area and the coastal urban area to the east. Nambour-Mapleton Road provides the main road connection between the local plan area and rural towns and communities to the west. The Bruce Highway passes through the north-eastern corner of the local plan area.

Nambour provides a key transit hub connecting the passenger rail system from Brisbane to the Sunshine Coast's public transport (bus) network. The proposed realignment and duplication of the North Coast Rail Line north to Nambour will further enhance opportunities for transit oriented development in and around the town centre.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

7.2.22.3 Purpose and overall outcomes

- (1) The purpose of the Nambour local plan code is to provide locally relevant planning provisions for the assessment of development within the Nambour local plan area.
- (2) The purpose of the Nambour local plan code will be achieved through the following overall outcomes:-
 - (a) Nambour is progressively developed as a major regional activity centre, providing a broad range of higher order uses and activities capable of servicing its resident population as well as surrounding rural towns, villages, rural residential and rural communities.
 - (b) Significant urban consolidation and redevelopment opportunities are provided for within Nambour, with a focus on transit oriented development in and around the town centre and railway station.
 - (c) Urban development within the Nambour local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the separate identity of Nambour, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the landscape character and productivity of surrounding rural lands.
 - (d) A broad range of higher order retail, commercial, community, cultural, health, entertainment and employment generating uses that support the role and function of Nambour as the dominant major regional activity centre for the central Sunshine Coast hinterland are provided to service the needs of Nambour and surrounding areas including Woombye, Palmwoods, Montville, Mapleton and Yandina.
 - (e) Development in the Major centre zone provides for mixed use premises incorporating residential uses above the ground storey so as to provide greater vitality and causal surveillance within the town centre and achieve residential densities that support centre functions and public transport.—Whilst the retail and commercial functions of Nambour Town Centre will increase in scale and intensity, the town centre remains compact, with any expansion consolidated and contained to land included within the Major centre zone.
 - (f) Development in the Major centre zone provides for mixed use premises which support a vibrant day time and night time economy. Residents in the zone should expect a reasonable level of ambient noise associated with the benefits of living in a centre.

(g) Development in Precincts NAM LPP-1 (Nambour Hospitality AreaSpecial Entertainment Precinct) and NAM LPP-2 (Former Mill Site and Hospitality Area) provides a range of business uses and entertainment activities including food and drink outlets, function facilities, bars, hotels and nightclub entertainment facilities that may operate after hours and include live or amplified music which creates a vibrant atmosphere. New and redeveloped residential uses and entertainment venues within, and in close proximity to, the precinct are designed and operated to achieve specified noise criteria and attenuation requirements.

Note—noise criteria and attenuation requirements for development within a special entertainment precinct and buffer area are contained in Section 9.4.3 (Nuisance code).

- (f)(h) Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) consolidates Nambour's role as a major regional activity centre and integrates the site with the traditional town centre through a permeable pedestrian and street network. Building form and urban design on the site provides for an outwardly focussed, main street development which is sympathetic to Nambour's traditional built form and *streetscape* character.
- (g)(i) The State heritage-listed Mill Houses form part of a courtyard setting for passive recreation and social interaction. The heritage significance of the Mill Houses is maintained and development provides for the retention and re-use of these buildings for business, community, cultural, entertainment and catering uses.
- (h)(j) Development in Precinct NAM LPP-3 (Town Centre Frame) provides for mixed use development with retail business uses at a scale and intensity less than in other parts of the Major centre zone in accordance with Table 7.2.22.4.2 (Nambour local plan supplementary table of consistent uses and potentially consistent uses in the Major centre zone). Development in Precinct NAM LPP-3 also provides for low intensity, small scale industry uses where adverse amenity impacts to surrounding uses are avoided. Physical and visual accessibility from the town centre frame to Nambour's transit hub and town centre core is maximised.
- (i)(k) Development within the Nambour Town Centre provides for visually interesting building elements which respond to and respect the established patterns of development in Nambour and are created to provide high levels of pedestrian comfort and convenience, meaningful architectural expression and interesting urban forms.
- (j)(I) Development within the local plan area protects and retains the established character areas of Nambour and buildings identified as having cultural heritage or *streetscape* significance as important elements of local character and identity.
- (k)(m) Development retains key landscape character and natural environment elements and protects significant views contributing to the character and landscape setting of Nambour including the prominent vegetated hills, escarpments and ridgelines surrounding the town.
- (H)(n) Development in Precinct NAM LPP-4 (Nambour Health Hub) provides for the consolidation of a sub-regional employment opportunity area, focussed around the Nambour General Hospital and Nambour Selangor Private Hospital. Development in the Local centre zone in the vicinity of the hospitals provides for the establishment of a range of health-related business uses and allied and compatible uses which are sympathetic to the residential amenity and character of the area in accordance with Table 7.2.22.4.3 (Nambour local plan supplementary table of consistent uses and potentially consistent uses in the Local centre zone). Development in this area does not detract from the role and function of Nambour's town centre as the key focus for office and retail activities.
- (m)(o) Development in the Medium density residential zone provides for a mix of housing types and densities with *dwellings* that are generally of a domestic scale or are provided in small groups so as to reduce the perceived scale and mass of development relative to its surrounds.
- (n)(p) Reconfiguring a lot in the Low density residential zone and Emerging community zone incorporates road and lot layouts which sensitively respond to site characteristics and are consistent with the established subdivision pattern of the town, characterised by regular shaped lots, grid street layout, open streetscape and mature street trees. Development occurs in an integrated manner and provides an interconnected network of roads, pedestrian and cycle paths and open space and buffering to surrounding rural lands.

Skyline); and (iii) understated colour so low-reflective roofing is materials; (g) ensures that signage is with the building; (h) includes provision of shaded seating and consimple paving materials of iprovides all weather protactive street frontages in continuous cantilleveree and/or lightweight structures with no load be over footpath areas in with mature or semi-mit trees planted along the si (i) provides for the context of the cont

9.4.3 Nuisance code¹

9.4.3.1 **9.4.3.1** Application

This code applies to <u>assessable development:</u>
assessable development identified as requiring assessment against the Nuisance code by the tables of assessment in Part 5 (Tables of assessment).: and.
located within a special entertainment precinct or associated buffer area identified on a local plan map.²

(1) All provisions in this code are assessment benchmarks for applicable assessable development.

9.4.3.2 Purpose and overall outcomes

- (1) The purpose of the Nuisance code is to maintain community wellbeing and protect environmental values by preventing or mitigating:-
 - (a) nuisance emissions from development adversely impacting on surrounding sensitive land uses; and
 - (b) the exposure of proposed sensitive land uses to nuisance emissions from surrounding development.
- (2) The purpose of the Nuisance code will be achieved through the following overall outcomes:-
 - (a) development is located, designed, constructed and operated to maintain appropriate levels of amenity and environmental performance by:-
 - not imposing unacceptable noise, light, glare, dust or odour emissions on surrounding sensitive land uses; and
 - (ii) ensuring that proposed *sensitive land uses* are not subject to unacceptable nuisance emissions generated from surrounding development, having regard to the location and context of the proposed development; and
 - (b) development, including development or redevelopment of residential activities and entertainment venues, within and in close proximity to a designated special entertainment precinct³, provides appropriate noise attenuation and mitigation to reduce potential impacts from live music and amplified sound; and
 - (b)(c) environmental values are protected by preventing or minimising potential environmental harm or environmental nuisance resulting from the release of contaminants, particularly noise, odour, light, glare, dust and particulates.

9.4.3.3 Performance outcomes and acceptable outcomes

Table 9.4.3.3.1 Performance outcomes and acceptable outcomes for assessable development

	precinct or as part of a temporary event, is located, designed, constructed and operated to ensure that noise		Development ensures noise does not

¹ Editor's note—the Planning scheme policy for nuisance code provides guidance for achieving outcomes of this code, including the preparation of a noise impact assessment report, odour impact assessment report and lighting impact assessment report.

Note—Council will take the order of occupancy of new and existing noise sources into consideration in implementing Performance Outcome PO1 of this code. The intent of this performance outcome is not to require existing lawful uses to control noise emissions in response to encroachment by new noise sensitive development.

Note—Special entertainment precincts and associated primary and secondary buffer areas are identified on Local Plan Map

LPM18 (Nambour Local Plan Precincts) and Local Plan Map LPM22 (Maroochydore/Kuluin Local Plan Precincts).

³ Editor's note—the **Guideline for development in a special entertainment precinct and buffer area** provides guidance for achieving certain outcomes of this code.

## Acceptable Outcomes ## Acc				
sensitive land uses having regard to the development. Note—this performance outcome applies even if noise emissions are generated by sensitive land uses from sources such as communal areas, service areas, plant and equipment (e.g. air conditioning units) and the like. 	ments for development in a designated g a material change of use for a use in tl	special ent	tertainment precinct secondary buffer are:
	n a material change of use for a use in the		
<u> 208</u>		<u>he residenti</u>	
	Development involving a material change of use for a use in the residential activity group in a secondary buffer area ensures:- (a) is located, designed and constructed to protect bedrooms and other habitable rooms from exposure to noise arising from non-residential activities outside the building, including potential future centre activities or mixed use development; and (b) is designed and constructed to	AO8	No acceptable outcome provided.
	achieve a minimum reduction in sound pressure level between the exterior of the building and the bedrooms or indoor primary living areas of 30dB(A).		
	Editor's note—where development is also subject to noise attenuation requirements for any of the following: transport noise corridors under the Queensland Development Code; or airport noise under Australian Standard		
	AS2021; or the highest applicable attenuation		
	requirements apply.		
Odour, I	Dust and Particulates		
20 <u>9</u> 4	Development is located, designed, constructed and operated to ensure that odour, dust and particulate emissions do not cause environmental	AO <u>9</u> 4.1	Development does not involve activities that create odorous air emissions. OR
	nuisance to sensitive land uses (whether existing or proposed uses) in the surroundings of the proposed development.		Development does not result in odour that causes environmental harm or nuisance with respect to surrounding land uses.
		AO <u>9</u> 4.2	Development does not involve activities that will result in airborne particles or emission being generated.
			OR
			Development ensures that no airborned particles or emissions cause environmental harm or nuisance through site layout design, construction and operation.
PO <u>10</u> 5	Development that is a sensitive land use is located, designed, constructed and operated to ensure that the proposed use is not subject to odour, dust or particulate emissions from surrounding development that would cause environmental nuisance.	AO <u>10</u> 5	No acceptable outcome provided.
iahtine	g and Glare		
PO <u>11</u> 6	Development ensures that lighting and glare does not have any significant adverse amenity impacts or create nuisance to surrounding premises.	AO <u>11</u> 6.1	Lighting devices are located, designed an installed to:- (a) minimise light spillage on surrounding premises; (b) preserve an acceptable degree of lighting amenity at surrounding premises;

Performance Outcomes	Acceptable	le Outcomes
		lights; (d) direct lights downwards; (e) position lights away from possible affected areas; and (f) enable the brightness of lights to be adjusted to low levels.
	AO <u>11</u> 6.2	Streets, driveways, servicing and car parking areas are located and designed to minimise vehicle headlight impacts on any surrounding residential premises.
	AO <u>11</u> 6.3	Reflective glare that would cause nuisance to residents or the general public at surrounding premises and public spaces is avoided or minimised through the use of:- (a) external building materials and finishes with low-reflectivity; or (b) building design/architectural elements or landscape treatments to block or reduce excessive reflected glare.

SC1.2 Administrative definitions

- (1) Administrative definitions assist with the interpretation of the planning scheme but do not have a specific land use meaning.
- (2) A term listed in column 1 of Table SC1.2.2 (Administrative definitions) has the meaning set out beside that term in column 2.
- (3)The administrative definitions listed here are the definitions for the purpose of the planning scheme.

Table SC1.2.1 Index of administrative definitions

- Access
- Acid sulfate soils (ASS)
- Active transport
- Active use
- Adjoining premises
- Adult store sensitive use area
- Advertising device
- Affordable living
- Amplified music
- Ancillary
- Annual exceedance probability (AEP)
- Art and craft centre
- Australian noise exposure forecast (ANEF)
- Average recurrence interval (ARI)
- Aviation facilities
- Aviation facility sensitive area
- Base date
- **Basement**
- Bed and breakfast
- Best practice
- Buffer or landscape buffer

Table SC1.2.2 Administrative definitions

Column 1 Term	Column 2 Definition				
Access	The entry of persons and vehicles onto a lot, either existing or proposed, from a road which abuts the <i>frontage</i> of that lot.				
Acid sulfate soils (ASS)	Soil or sediment containing highly acidic horizons or layers affected by the oxidation of iron sulfides, known as actual ASS, and/or soil or sediment containing iron sulfides or other sulfidic material that has not been exposed to air and oxidised, known as potential ASS.				
Active transport	Non-motorised forms of transport involving physical activity, such as walking and cycling.				
Active use	Any use that by its nature creates activity on adjoining land. The term includes but is not necessarily limited to the following uses as defined in Table SC1.1.2 (Use definitions) :- (a) community use; (b) food and drink outlet; (c) hotel; (d) office (where a bank or real estate agent); (e) shop; and (f) shopping centre.				
Adjoining premises	Premises that share all or part of a measurable common boundary.				
Adult store sensitive use area	Means the area from the boundary of land occupied by a <i>child care centre</i> , educational establishment or place of worship (Sensitive Use) which is within the greater of the following:- (a) 200 metres of a Sensitive Use according to the shortest route a person may lawfully take, by vehicle or on foot; or (b) 100 metres of a Sensitive Use measured in a straight line.				
Advertising device	Any permanent structure, device, sign or the like intended for advertising purposes. It includes any framework, supporting structure or building feature that is provided exclusively or mainly as part of the advertisement. Note—an advertising device that is not visible from a public place or premises other than premises on which the advertising device is placed is not an advertising device for the purposes of the planning scheme. Note—an advertising device required to be placed on premises by legislation (including subordinate legislation) is not an advertising device for the purposes of the planning scheme.				
Affordable living	Housing and neighbourhoods that are designed to minimise the cost of living through a range of measures including the following:- (a) provision of appropriate employment, community <i>infrastructure</i> and open space; (b) provision of high quality public transport and bicycle and pedestrian <i>infrastructure</i> networks; and (c) design for water and energy efficiency.				
Amplified music	Means music that is played with the use of electronic amplification equipment, for example electric guitars or loud speakers.				

Column 1 Term	Column 2 Definition				
	Note—for the purposes of this definition, amplified music does not include the following: use of a microphone by a singer; or use of domestic scale amplification equipment for the purposes of playing background music.				
Ancillary	Associated with, but incidental and subordinate to.				
Annual exceedance probability (AEP)	The likelihood of occurrence of a flood of a given size or larger in any one year, usually expressed as a percentage (e.g. 5% AEP).				
Art and craft centre	The use of premises being <i>shop</i> for the display and sale of a work of art or craft, such as handicrafts, pottery, paintings and sculptures. The term includes:- (a) the manufacture of art or craft on the premises; and (b) associated individual or small group instruction on the making of a work of art or craft.				
Australian noise exposure forecast (ANEF)	A single number index (shown as a series of contours on an Airport Environs Overlay Map) that predicts for a particular future year the cumulative exposure to aircraft noise likely to be experienced by communities near airports during a specified time period.				
Average recurrence interval (ARI)	The average period between the recurrence of a storm event of a given rainfall intensity.				
	The ARI represents a statistical probability. For example, a 10 year ARI indicate an average of 10 years between exceedance of a given storm magnitude.				
Aviation facilities	Navigation, communication or surveillance installations provided to assist the safe and efficient movement of aircraft. Such facilities may be located either on or off airport premises.				
Aviation facility sensitive area	The area around an <i>aviation facility</i> that is sensitive to development including physical obstructions, competing radio transmissions or significant electromagnetic emissions.				
Base date	The date from which a local government has estimated its projected <i>infrastructure</i> demands and costs.				
Basement	A space that is situated between one floor level and the floor level next below where no part of the space projects more than one metre above ground level.				
Bed and breakfast	The use of a premises being a <i>dwelling house</i> for short term accommodation to the travelling public.				
Best practice	The application of measures that are comparable with the acknowledged best measures applied nationally and internationally.				
Buffer (or landscape buffer)	An area required for ecological, acoustic or scenic amenity protection purposes that incorporates a separation distance and associated landscape, structures and works:- (a) between different land uses; (b) from a major noise source; (c) from a conservation area or a public recreation area; or (d) from a wetland, waterway or waterbody.				
Building height	Means:- (a) if specified in metres—the vertical distance between the <i>natural ground level</i> and the highest point of the building roof (apex) or parapet at any point, but not including any load bearing antenna, aerial, chimney, flagpole or the like; (b) if specified in <i>storeys</i> —the number of <i>storeys</i> above <i>natural ground level</i> ; or (c) if specified in both metres and <i>storeys</i> , both (a) and (b) apply.				
Business activity group	The uses identified in Figure SC1.1.2B (Business activity group) as forming part of the <i>business activity group</i> .				

Column 1 Term	Column 2 Definition				
	(b) if the level of the ground on the day mentioned in paragraph (a) is not known, the natural level of the ground or probable natural level of the ground as determined by a cadastral surveyor.				
Net developable area	The area of land available for development. It does not include land that cannot be developed due to constraints such as acid sulphate soils, conservation land, flood affected land or steep slope.				
	Note—for the purpose of a priority infrastructure plan, <i>net developable area</i> is usually measured in hectares, net developable hectares (net dev ha).				
Netserv Plan	A distributor-retailer's plan about its water and wastewater networks and provision of water service and wastewater service pursuant to section 99BJ of the South East Queensland Water (Distribution and Retail Restructuring) Act 2009.				
Non-juvenile koala habitat tree	A <i>koala habitat tree</i> that has a height of more than four (4) metres, or a trunk with a circumference of more than 31.5 centimetres at 1.3 metres above the ground, or both.				
Non-urban zone	 Means each of the following zones:- (a) Community facilities zone if located outside the urban growth management boundary; (b) Sport and recreation zone if located outside the urban growth management boundary; (c) Open space zone; (d) Environmental management and conservation zone; (e) Limited development (landscape residential) zone; (f) Rural zone; (g) Rural residential zone; and (h) Tourism zone if located outside the urban growth management boundary. 				
Not-for-profit organisation	A bona fide non-profit, volunteer, charitable, community, sporting or religious organisation which is registered with the Australian Tax Office as a charitable/non-profit organisation or with the Office of Fair Trading under either the Associations Incorporation Act 1981 or Collections Act 1966.				
Obstacle limitation surface (OLS)	The surface that establishes the limit to which objects may project into the airspace associated with an airport or aerodrome to maintain safe aeronautical operations. The <i>OLS</i> consists of an outer surface, a take-off/approach surface and a transitional surface.				
Other activity group	The uses identified in Figure SC1.1.2G (Other activity group) as forming part of the <i>other activity group</i> .				
Operational airspace	The areas and vertical dimensions of the <i>OLS</i> of the Sunshine Coast Airport and Caloundra Aerodrome.				
Outermost projection	The <i>outermost projection</i> of any part of a building or structure including, in the case of a roof, the outside face of the fascia, or the roof structure where there is no fascia, or attached sunhoods or the like, but does not include retractable blinds, fixed screens, rainwater fittings, or ornamental attachments.				
Planning assumptions	Assumptions about the type, scale, location and timing of future growth.				
Plot ratio	The ratio of gross floor area to the area of the site.				
Prescribed mixed use area	Means each of the following zones, local plan areas and precincts:- (a) Principal centre zone, where within Maroochydore/Kuluin local plan area, Precinct MAR LPP-1 (City core); (b) Major centre zone, where within:- (i) Caloundra local plan area, Precinct CAL LPP-1 (Bulcock Street); (ii) Nambour local plan area, other than Precinct NAM LPP-3 (Town centre frame); (iii) Sippy Downs local plan area, Sub-precinct SID LPSP-1a (Sippy Downs town centre core); (c) District centre zone, where within the Mooloolaba/Alexandra Headland local plan area; and (d) Tourist accommodation zone, where within:-				

Column 1 Term	Column 2 Definition				
	 (i) Caloundra local plan area (Caloundra and Kings Beach only); (ii) Coolum local plan area; (iii) Maroochydore/Kuluin local plan area; and (iv) Mooloolaba/Alexandra Headland local plan area. 				
Prescribed other development codes	The following other development codes contained in Part 9 (Development codes) of the planning scheme:- (a) Landscape code; (b) Nuisance code; (c) Safety and security code; (d) Stormwater management code; (e) Sustainable design code; (f) Transport and parking code; (g) Waste management code; (h) Works, services and infrastructure code.				
Primary active street frontage	 Any frontage of a building that creates activity on the adjacent street or other public place. Unless otherwise specified in a local plan code, development on a <i>primary active street frontage</i>:- (a) contains <i>active uses</i> such as retail and entertainment/catering business uses for a minimum of 90% of the street front boundary, (b) is built to the street front boundary at ground level; (c) has windows and door openings to the adjacent street or public place; and (d) minimises driveway and servicing <i>access</i> across the active street frontage. 				
Principal public transport network	The public transport corridors identified on Figure 9.4.8C (Strategic Network of Public Transport Links) as a dedicated public transport corridor, public transport priority corridor and public transport advantage corridor.				
Private open space	An outdoor space for the exclusive use of occupants of a building.				
Probable maximum flood (PMF)	The largest flood that could reasonably occur at a particular location, resulting from the probable maximum precipitation. The <i>PMF</i> defines the extent of flood-prone land. Generally, it is not physically or financially possible to provide general protection against this event.				
Probable maximum storm tide (PMST)	The maximum storm tide level that may be expected from the combination of meteorological and hydrological conditions that are reasonably possible in a particular locality, including the predicted impacts of climate change.				
Property maintenance activities	Vegetation clearing that is reasonably necessary for property maintenance including construction and maintenance of farm tracks, fences, farm structures (e.g. sheds, bores, windmills, tank stands, and stock yards), maintenance of crops, slashing grass, harvesting of crops, maintenance of pasture and cleared land areas and the pruning, felling and clearing of orchard vegetation species.				
Protected estate	 Means:- (a) any protected area to which the <i>Nature Conservation Act 1992</i> applies, including any national park, conservation park, resource reserve, nature refuge, coordinated conservation area, wilderness area, World heritage management area and international agreement area; (b) any area protected under other legislation primarily for its conservation significance: and (c) any <i>park</i> owned or controlled by <i>Council</i> and managed primarily for its conservation significance. 				
Public open space	Outdoor spaces that are generally accessible to the community and provide for a range of sport, recreation, cultural, entertainment or leisure pursuits.				
Public safety area	An area immediately beyond the end of a runway and having a relatively high risk from an aircraft incident. The <i>public safety area</i> for the Sunshine Coast Airport is shown on the relevant Airport Environs Overlay Map.				
Rear lot	A lot which has access to a road via an access strip which forms part of the lot or via an easement over adjoining land.				

Schedule 1

- (iii) an assessment of the measured and predicted noise levels using an appropriately recognised methodology and critieria. From the assessment, the determination of compliance with the criteria as defined in Schedule 1 of the *Environmental Protection (Noise) Policy 2008*; and
- (iv) specification of appropriate control measures if necessary.

SC6.15.5 Advice for preventing or minimising nuisance emissions and imissions associated with live entertainment, amplified music and voices — Other than in a designated special entertainment precinct or associated buffer

The following is advice for achieving Performance Outcome PO13PO1 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code where there is potential for emissions or imissions associated with live entertainment, amplified music and voices, other than in a designated special entertainment precinct or associated buffer, to cause environmental harm or nuisance at a sensitive land use:-

- (a) compliance with Performance Outcome PO13 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code may be demonstrated in part or aided by submission of a noise impact assessment report prepared by a competent person, which properly addresses, describes or includes:-
 - (i) in respect to a venue in existing or new premises, the following:-
 - (A) a location plan identifying the subject site and the nearest potentially affected or approved sensitive land uses (including residential, commercial, educational, health and industrial) and any significant features such as topographic variation, barriers and intervening buildings;
 - (B) results of measurements of octave band background noise levels as LA90, Oct noise levels at a position representative of the nearest potentially affected sensitive land uses to the subject site in the absence of noise emissions from the subject site. The background noise levels are to be recorded for the time period most likely to be the most sensitive from a noise perspective;
 - (C) results of measurements of octave band noise levels as LA10, Oct noise levels at the nearest potentially affected sensitive land uses to the subject site during noise emissions from live entertainment, amplified music or voices at the subject site. The source noise levels during the noise monitoring are to be representative of the worst case noise emissions from the subject site at maximum patron and music design capacity during the type of entertainment events likely to be held at the premises;
 - (D) measurements are to be made to represent each type of event likely to occur. The noise tests are to be conducted under conditions representative of normal operations (e.g. all proposed hours of operation, if doors and windows would normally be open, this is to occur for the test);
 - (E) an assessment of the measured and predicted noise levels using an appropriately recognised methodology and criteria. From the assessment, the determination of compliance with the criteria as defined in Schedule 1 of the Environmental Protection (Noise) Policy 2008;
 - (F) comment on potential noise impacts associated with patron noise at the premises and noise from departing patrons associated with the entertainment event;
 - (G) specification of appropriate control measures if necessary (e.g. operational conditions such as closed windows, or mitigation measures such as improved acoustic insulation, including Rw of glazing, walls, roof, and materials, and/or barrier density); and
 - (H) specification of the maximum source noise level to be emitted at the premises for each type of event, each room and each event configuration (e.g. for different positions used for a live band in the same venue) as appropriate.; and
 - (ii) in respect to a venue in new premises, the following:-
 - (A) a location plan identifying the subject site and the nearest potentially affected receptor and any significant features such as topographic variation, barriers and intervening building;
 - (B) identification of design measures that are to be incorporated into the development to minimise the risk of noise impacts on sensitive land uses; and
 - (C) the results of the on-site noise tests that demonstrate compliance with the acoustic criteria specified in Schedule 1 of the Environmental Protection (Noise) Policy 2008.

SC6.15.6 Advice for improving amenity of residential uses in a prescribed mixed use area

The following is advice for achieving Performance Outcome PO3 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code where there is potential for imissions associated with non-residential activities to cause environmental harm or nuisance at a sensitive land use in a prescribed mixed use area:-

- (a) compliance with Performance Outcomes PO3 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code may be demonstrated by utilising glazing to the external building envelope which achieves a minimum acoustic performance of:-
 - (i) Rw 35 where total area of glazing (windows and doors) for a habitable room is greater than 1.8m²; or
 - (i)(ii) Rw 32 where total area of glazing (windows and doors) for a habitable room is less than or equal to 1.8m².

Note:- The acoustic performance ratings are to be based on a glazing system which was acoustically tested with the same frame, seals and glass as per the proposed system.

(b) where façade treatments are required for operable windows and doors of noise affected bedrooms or living rooms, mechanical ventilation is provided.

SC6.15.7 Advice for preventing or minimising nuisance emissions and imissions associated with live entertainment, amplified music and voices in a designated special entertainment precinct or associated buffer

The following is advice for achieving Performance Outcome PO4 to PO87 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code where there is potential for emissions or imissions associated with live entertainment, amplified music and voices, in a designated special entertainment precinct or associated buffer, to cause environmental harm or nuisance at a sensitive land use:-

- (a) compliance with Performance Outcome PO4 to PO87 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code may be demonstrated in part or aided by submission of a noise impact assessment report prepared by a competent person, which properly addresses, describes or includes:-
 - (i) in respect to a venue, the following:-
 - (A) a location plan identifying the subject site, location of site within special entertainment precinct, the nearest potentially affected sensitive land uses (including residential, commercial, educational, health and industrial) and any significant features such as topographic variation, barriers and intervening buildings;
 - (B) plans showing the proposed venue layout including building envelope construction and areas with live entertainment, amplified music and voices;
 - (C) a review of expected internal one-third octave band noise levels from live entertainment, amplified music and voices, and external noise levels calculated (or measured) at maximum patron and music design capacity using an appropriately recognised methodology and assessed with demonstrated compliance with the criteria in PO4 and PO5; OR
 - (D) a review of expected outdoor (e.g. beergarden) one-third octave band noise levels from live entertainment, amplified music and voices, and external noise levels calculated (or measured) at maximum patron and music design capacity using an appropriately recognised methodology and assessed with demonstrated compliance with the criteria in PO7 at a use in the residential activity group;
 - (E) note: measurements are to be 3 to 5 minute duration.
 - (F) comment on potential noise impacts associated with patron noise at the premises and noise from departing patrons associated with the entertainment event;
 - (G) specification of appropriate control measures if necessary (e.g. operational conditions such as closed windows, or mitigation measures such as improved acoustic insulation, including Rw of glazing, walls, roof and materials and/or barrier density); and

- (H) specification of the maximum source noise level to be emitted at the premises for each type of event, each room and each event configuration (e.g. for different positions used for a live band in the same venue) as appropriate; and
- (ii) in respect to a use in the residential activity group, the following:-
 - (A) a location plan identifying the subject site, location of site within special entertainment precinct and associated buffer, the nearest potentially affected venues with live entertainment, amplified music and voices, and any significant features such as topographic variation, barriers and intervening buildings;
 - (B) acoustic rating (Rw) and 63Hz octave band calculated transmission loss values for the building facade elements (walls, roof/ceiling and glazing systems) and overall facade, and a description of the methodology used to forecast the performance of the glazing system (note: the noise reduction required in PO6 is typically 6 dB less than the transmission loss of the overall facade at 63 Hz);
 - (C) a review of one-third octave band noise levels from live entertainment, amplified music and voices located in the same building or within 5m of the building (including measurement of noise from existing venues at maximum patron and music design capacity), and indoor noise levels calculated using an appropriately recognised methodology and assessed with demonstrated compliance with the criteria in PO7; and
 - (D) detailed plans and elevations showing the proposed external building facade construction, including walls, roof/ceiling and glazing systems. Glazing system detail is to include glazing thicknesses, glazing area (i.e. window and door dimensions), airgaps, seal types, and opening mechanism (e.g. sliding, awning, fixed). Where façade treatments are required for operable windows and doors of noise affected bedrooms or living rooms, mechanical ventilation is to be provided

SC6.15.6SC6.15.8 Advice for preventing or minimising nuisance emissions and imissions associated with odour

The following is advice for achieving Performance Outcomes PO94 and PO105 of **Table 9.4.3.3.1** (Performance outcomes and acceptable outcomes for assessable development) of the **Nuisance code** where there is potential for odour emissions or imissions to cause environmental harm or nuisance at a sensitive land use:-

- (a) compliance with Performance Outcomes PO<u>9</u>4 and PO<u>10</u>5 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code may be demonstrated by the preparation and submission of an odour impact assessment report prepared by a competent person, which properly addresses, describes or includes the following:-
 - (i) the potential for odour emissions from a proposed activity to be detected at existing sensitive land uses: or
 - the potential for odour emissions from existing activities to be detected at a proposed sensitive land uses;
- (b) an odour impact assessment report should make reference to the most appropriate contemporary guidelines, criteria and methods for a particular type of source or activity; and
- (c) the justification for the selected guidelines, criteria and methods should form part of the odour impact assessment report.

SC6.15.7SC6.15.9 Advice for preventing or minimising nuisance emissions and imissions associated with dust and particulates

The following is advice for achieving Performance Outcomes PO94 and PO105 of **Table 9.4.3.3.1** (Performance outcomes and acceptable outcomes for assessable development) of the **Nuisance code** where there is potential for dust and particulate emissions or imissions to cause environmental harm or nuisance at a sensitive land use:-

(a) compliance with Performance Outcomes PO94 and PO105 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code may be achieved by the submission of an air quality impact assessment report undertaken by a competent person which utilises an appropriately recognised methodology and air quality criteria.

Schedule 1

SC6.15.8SC6.15.10 Advice for preventing or minimising nuisance emissions and imissions associated with lighting

The following is advice for achieving Performance Outcome PO<u>116</u> of **Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development)** of the **Nuisance code** where there is potential for lighting emissions or imissions to cause environmental harm or nuisance at a sensitive land use:

- (a) compliance with Performance Outcome PO116 of Table 9.4.3.3.1 (Performance outcomes and acceptable outcomes for assessable development) of the Nuisance code may achieved by the incorporation of such measures as:-
 - (i) building facades which have no flashing lights;
 - (ii) suitable boundary fencing and landscaping to prevent lighting overspill;
 - (iii) suitable lighting design (e.g. directional measures) to prevent overspill; and
 - (iv) external areas that are lit in accordance with AS4282 Control of the Obtrusive Effects of Outdoor Lighting; and
- (b) Council may require submission of a lighting impact assessment report prepared by a competent person to demonstrate that lighting proposed to be established in conjunction with development will not have adverse amenity impacts.

SC6.15.9SC6.15.11 Guidelines for achieving the nuisance code outcomes

For the purposes of the performance outcomes in the Nuisance code the following are relevant guidelines:-

- (a) AS1055.1-1997: Acoustics Description and Measurement of Environmental Noise General Procedures (Standards Australia) 1997;
- (b) AS1158.3.1:2005: Lighting for roads and public spaces Pedestrian Area (Category P) lighting Performance and design requirements (Standards Australia) 2005;
- (c) AS2107:2000: Acoustics Recommended design sound levels and reverberation times for buildings interiors (Standards Australia) 2000;
- (d) AS2670.2: 1990: Evaluation of human exposure to whole body vibration -Continuous and shock induced vibration in buildings (1 to 80 Hz) (Standards Australia) 1990;
- (e) AS3671: 1989: Acoustics Road traffic noise intrusion Building siting and construction (Standards Australia) 1989;
- (f) AS4282 1997: Control of the obtrusive effects of outdoor lighting (Standards Australia) 1997;
- (g) Queensland Development Code: Mandatory Part 4.4 Buildings in a transport noise corridor,
- (h) Environmental Protection (Noise) Policy 2008;
- (i) Environmental Protection (Air) Policy 2008;
- (j) Road Traffic Noise Management: Code of Practice (Department of Main Roads) 2008;
- (k) Guideline for development in a special entertainment precinct and buffer area (Sunshine Coast Council)
 2018;
- (I) Guideline: Planning for noise control (Department of Environment & Heritage Protection);
- (k)(m) Guideline: Odour Impact Assessment from Developments (Department of Environment and Heritage Protection):
- (H)(n) Guideline: Application requirements for activities with noise impacts (Department of Environment and Heritage Protection);
